STORIA

STORY

Tekna nasce nel 1990 da un'idea e dall'esperienza dell'Ing. Luigi Paracchini, il quale dopo aver lavorato per molti anni in una grossa compagnia a livello mondiale nel settore della refrigerazione, decide di mettere le proprie competenze sul campo creando una linea di prodotti rivolti al settore della gelateria e pasticceria.

Sempre attenta alle esigenze del mercato ed evolvendosi di conseguenza, ora Tekna è una realtà che esporta nei 5 continenti e che offre una gamma completa di soluzioni che spaziano dal piccolo punto vendita, al laboratorio, alla grande distribuzione.

Tekna was born in 1990 from an idea of Engineer Luigi Paracchini. After years of experience in a multinational company in the field of refrigeration, he decided to establish his own company creating his own line of products in the field of ice cream and bakery.

Always attentive to the needs of the market and updating as a result, Tekna is present in 5 continents and offers a full range of solutions from small shops, laboratories to the large-scale distribution.

INNOVAZIONE

INNOVATION

Da sempre Tekna è attenta all'evoluzione del mercato e della tecnologia, introducendo già negli anni '90, tra i primi nel settore: la tecnologia no-frost, le vetrine isolate a gas inerte e basso emissive, gli sbrinatori a gas caldo.

Il mercato in continua evoluzione chiede alle aziende sempre più attenzione alle innovazioni. Tekna raccoglie la sfida implementando nei propri prodotti tutti gli accorgimenti tecnologici che nel tempo si sono presentati. Nuovi materiali, nuovi gas, nuovi sistemi di espansione, nuovi controlli e gestione della temperatura, materiali e finiture, presentazione del prodotto conservato; sono solo alcuni degli aspetti con cui lo staff Tekna si confronta quotidianamente.

Tekna has always had a focus on the evolution of the market and technology, being one of the first to introduce in the '90s: the no-frost system of refrigeration, isolated glasses with inert gas and low-e glasses, de-frost with the use of hot gas. The market continuously pays attention to innovation. Tekna satisfies it using new materials, new gases, new expansion system, new temperature controllers and finishing; these are few aspects of the innovation that Tekna faces every day.

CERTIFICATI

MARKS

Tekna da molti anni è in possesso del certificato gestione qualità ISO 9001.

Al giorno d'oggi uno degli aspetti più importanti da considerare è la conformità alle regole nazionali ed internazionali. Quasi tutti i mercati sono regolati da norme specifiche in materia di sicurezza elettrica e ambientale. Tekna investe molte risorse nell'ottemperare alle normative, questo le ha permesso di ottenere nel tempo la certificazione dei propri prodotti presso i più autorevoli enti certificatori ottenendo i marchi qualità di molti paesi esteri.

Since many years Tekna is certified for quality ISO 9001.

Nowadays one of the most important aspects to consider is the conformity to the national and international laws. Almost all markets are ruled by specific laws for electrical and environment safety. Tekna invests many resources to comply with the existing regulations, this has enabled it to obtain the certification of its products through the most authoritative international certification bodies.

TEKNA
SINCE 1990

Dopo una lunga esperienza nel campo della refrigerazione commerciale, nasce TEKNA S.r.l. Il suo fondatore, l'Ingegnere Luigi Paracchini, con l'aiuto dei suoi collaboratori crea la prima sede della società a Sesto Calende, dove nascono i primi prodotti TEKNA:

le vetrine frigorifere destinate alle gelaterie, pasticcerie, pizzerie ecc.

Nel mercato italiano ed europeo TEKNA organizza un organico ben definito per zone, che affida a rivenditori fidati: in breve tempo l'azienda è presente su tutto il territorio.

Established in 1990, by his founder, Engineer Luigi Paracchini, TEKNA S.R.L.

had his first head quarter in Sesto Calende (Italy), where he starts the production of professional showcases and refrigerators.

Since the beginning our main markets has been Italy and Europe having trusted retailers in all the Countries. Shortly the brand TEKNA became well known in the whole Europe.

Together with his two sons, Engineer Paracchini increased TEKNA's range of products, manufacturing laboratory cabinets, shock freezer,

Con l'aiuto dei suoi due figli, l'Ing. Paracchini amplia la gamma dei prodotti TEKNA, inserendo nella produzione gli armadi da laboratorio, gli abbattitori di temperatura per gelateria e pasticceria e infine i fermalievitazione.

La crescita di Tekna verso la globalizzazione ha stimolato il desiderio di produrre prodotti certificati e sicuri.

Dal 1998 TEKNA è certificata a livello internazionale. Questo ha permesso a TEKNA di sviluppare una rete di rivenditori esclusivi che garantisce la distribuzione ed il continuo supporto al cliente finale.

retarder provers and under-counters for any professional use.

The growth of TEKNA towards the globalization has stimulated the wish of manufacturing safer and certified products. Since 1998 Tekna is certified at International levels.

This allowed Tekna to expand rapidly all over the World, developing a sales network of exclusive dealerships which have guaranteed widespread distribution and continuous, prompt support for end users.

Today Tekna reaches an annual production of 10.000 cabinets and

Oggi TEKNA può vantare una produzione annua di 10.000 macchine ed ha la capacità di fornire un'assistenza tecnica costante al cliente.

È suo inoltre il primato nella fornitura di prodotti su misura per soddisfare qualsiasi esigenza.

TEKNA ha organizzato un team che studia i bisogni dei clienti trovando soluzioni personalizzate in base alle richieste specifiche, cercando materiali innovativi pianificando nuove soluzioni per nuovi prodotti nel mondo della refrigerazione. I prodotti possono essere personalizzati in base alle richieste dei clienti.

provides continued technical support to our customers.

Our priority is to provide customized products to meet all their needs.

Tekna has organized a team that studies the needs of the clients, finds "custom made" solutions for specific requests, seeks innovative materials, plans new solutions for new products in the refrigeration business. In fact, all the products can be customized with the exact requirements that the customer would like to have on the cabinets.

ConneX
ASSIST

INNOVAZIONE, DESIGN & CONNETTIVITA' *INNOVATION, DESIGN & CONNECTIVITY*

Il controllo della tua vetrina refrigerata a portata di smartphone.
Control your refrigerated showcase just a click away on your smartphone.

INNOVAZIONE, DESIGN & CONNETTIVITA'

Controllore di temperatura per unità statiche e ventilate a temperatura positiva e negativa con connettività integrata WiFi, Bluetooth e Data Logger.

Connettibile simultaneamente al Cloud ATEX e all'App locale ConneX

- TASTI CAPACITIVI
- DOPPIO DISPLAY con 7-SEGMENTI BICOLOR
- DATA LOGGER
- APP CONNEX

ConneX

FUNZIONI DEDICATE

WINERY

- Letture della zona vini bianchi e vini rossi
- Impostazione dell'ora di on/off della luce vano
- Accensione e spegnimento della ventola di ricircolo
- Funzioni gestite anche dall'Applicazione ConneX

PASTICCERIA/GELATERIA

- Imposta la configurazione gelateria/pasticceria
- Sbrinamento con avvio al setpoint
- Tasti up/dw per un attuatore ausiliario
- Impostazione dell'ora di on/off della luce vano
- Display remoto connettibile su linea CANBUS
- Funzioni gestite anche dall'Applicazione ConneX

PRALINERIA

- Funzione CLIMA per il controllo temp./umidità
- Letture simultanea della temperatura e umidità
- Grafico delle variabili tramite App. ConneX

MATURAZIONE CARNE ??

- Azione Heating per piani caldi
- Sbrinamento per rilevazione di ghiaccio
- Sbrinamento a orario
- Report HACCP settimanale tramite App o Cloud

CARATTERISTICHE

Flex

- Box in ABS - Dima L150xW31mm
- Montaggio a incasso o retropannello
- Alimentazione 110/230Vac - 50/60Hz
- Memoria Flash da 2Mb per Data Logger
- Orologio RTC con supercap di mantenimento
- N°3 sonde NTC [-49.9, +99.9]°C Ris. 0.1°C
- N°2 ingressi digitali
- N°5 Relè: 30A-8A SPDT-5A-5A-5A
- N°2 porte CanBUS
- Moduli Wi-Fi e BLE integrati

VETRINA REFRIGERATA
prezzo netto € 330,00 cad. + iva

VETRINA PER MATURAZIONE CARNE
net price € 600,00 cad. + iva

INNOVATION, DESIGN & CONNECTIVITY

Temperature controller for static and ventilated refrigerated units at positive and negative temperatures with built-in Wi-fi, Bluetooth and Data Logger connectivity.
Simultaneously connected to the ATEX Cloud and the local Connex App.

- CAPACITIVE KEYS
- DUAL DISPLAY
- 7-SEGMENTS BICOLOUR
- DATA LOGGER
- CONNEX APP

DEDICATED FUNCTIONS

CARATTERISTICHE

Flex

- ABS box – template L 150 x W 31 mm
- Recessed or back panel assembly
- Power supply 110/230 Vac – 50/60 Hz
- 2 mb flash memory for Data Logger
- RTC clock with supercap maintenance
- No 3 NTC probes (-49.9, +99.9)°C Ris. 0.1 °C
- No 2 digital inputs
- No 5 relays:30A-8A SPDT-5A-5A-5A
- No 2 CanBUS ports
- Integrated Wi-Fi and BLE modules

WINERY

- White and red wines monitoring
- Chamber lights on/off time setting
- Recirculation fan on/off switch
- Managing functions from Connex App

PASTRY / ICE-CREAM

- Ice cream/pastry configuration setting
- Defrosting at set point start
- Up/Dw keys selection
- Chamber lights on/off time setting
- Remote display connectable through CANBUS cable
- Managing functions from Connex App

PRALINES

- CLIMA function to control temperature and humidity
- Simultaneous temperature and humidity monitoring
- Variable graph through Connex App

MEAT DRY AGING

- Azione Heating per piani caldi
- Sbrinamento per rilevazione di ghiaccio
- Sbrinamento a orario
- Report HACCP settimanale tramite App o Cloud

REFRIGERATED SHOWCASES
net price € 330,00 cad. + iva

DRY AGE SHOWCASES
net price € 600,00 cad. + iva

APPLICAZIONE CONNEX

Applicazione per la connettività locale con i termostati della serie FLEX. Permette il completo controllo del dispositivo, la programmazione dei parametri letti da file o da QR Code; traccia i grafici delle variabili monitorate e presenta la lista degli eventi di difformità.

EVOLINE

Presentazione

NEL 2018 nasce Evo, il nuovo concept di Tekna, rivolto al futuro ed all'evoluzione del brand.

Da sempre all'avanguardia in fatto di tecnologia e di design, Tekna propone un rinnovamento, rispettando il familiar feeling delle linee iconiche che la caratterizzano ed apportando modifiche strutturali ed estetiche volte al miglioramento ed all'evoluzione del prodotto esistente.

Evo, disponibile in dimensioni standard predefinite, con infinite varianti colore, è adattabile a qualsiasi esigenza ed inseribile in qualsiasi contesto specifico.

Gestione degli allarmi acustici e visivi, Display incorporato nel vetro con tecnologia Sensitive touch, Maniglia ad incasso nel profilo della porta.

Eleganza ed Innovazione la contraddistinguono.

Per l'Azienda infatti questo non è un punto di arrivo perchè "Evolversi non è importante ma è l'unica cosa che conta" Michele Paracchini.

Evo line

Presentation

Evo was born, the new Tekna concept, facing the future and the evolution of the brand.

Always at the forefront of technology and design, Tekna proposes a renewal, respecting the familiar feeling of the iconic lines that characterize it and making structural and aesthetic changes aimed at improving and evolving the existing product.

Evo is available standard dimensions sizes, with any color variations, is adaptable to any need and can be inserted in specific context.

Management of audible and visual alarms, display incorporated in the glass with Sensitive touch technology, recess handle in the door profile.

It is the perfect combination of professionalism, quality and elegance.

“Evolving is the most important thing”

Michele Paracchini.

GAS R290

Grazie al suo basso impatto ambientale ed alle eccellenti proprietà termodinamiche, l'uso dell'R290 continua ad aumentare.

Con indubbi benefici per la salute dell'uomo e l'ambiente, i refrigeranti alternativi sarebbero determinanti nella diminuzione delle emissioni di anidride carbonica nell'atmosfera e nel contenimento della temperatura globale del pianeta.

La linea EVO accoglie a 360° le nuove tendenze dello stile, nelle performance, nell'efficienza e nel rispetto dell'ambiente.

Thanks to its low environmental impact and excellent thermodynamic properties, the use of the gas R290 continues to increase.

With undoubted benefits for human health and the environment, alternative refrigerants are crucial in reducing carbon emissions into the atmosphere and the global temperature.

The EVO line welcomes all the new trends in style, performance, efficiency and respect for the environment.

■ Termostato touch, incorporato nel vetro, con Energy Saving e funzionalità HCCP.

Nuovo design più moderno ed elegante, minimalista ed efficiente.

Touch screen controller, embedded in the glass, with Energy Saving and HCCP functions.

It has a new modern and elegant design, minimalist and efficient

■ Illuminazione a led e interno inox a specchio.

LED lighting and mirrored stainless steel interior.

Maniglia incassata per garantire una maggiore ergonomia di utilizzo.

Supporti vetro con guarnizione anticaduta.

Recessed handle to ensure greater use.

Glass supports with anti-fall seal.

Copertura vano motore realizzata interamente in alluminio e microforata, per la dissipazione il calore. EVO, la nuova vetrina refrigerata di TEKNA, è ad impatto zero grazie all'utilizzo di soli materiali riciclabili.

Engine compartment cover made entirely of aluminum and micro-perforated for heat dissipation.

EVO, Tekna's new refrigerated display case, has zero impact thanks to the use of only recyclable materials.

No frost system of refrigeration for NFP, NFN, NFA, NFNA, FL

Campo lavoro espresso in gradi Celsius del frigorifero
Range of temperature in °C

Numero di compressori montati
N° of compressors

Consumo elettrico del compressore in Kw/h
Compressor power consumption in Kw/h

Volume in litri del vano di conservazione
Inner capacity in lt

Peso della vetrina, viene indicato il peso lordo e netto
Gross and net cabinet's weight.

Costo in euro tasse e optional esclusi
€ price (taxes and options excluded)

Sbrinamento automatico: gas caldo o elettrico
Automatic de-frost: hot gas or electric

Sbrinamento manuale per fermo macchina
Manual de-frost for downtime

Condensazione ad acqua o mix aria acqua
Water condensation system or water-air system

Voltaggio speciale: V 110/1/60 - 220/1/60 hz
Special voltage: V 110/1/60hz - 220/1/60 hz

Molla per chiusura automatica della porta
Hinges for automatic closing doors

Kit conservazione cioccolato disponibile sulle vetrine della serie P

Chocolate kit for pralines storage

Ripiani per monoporzioni in plexiglass con fori porta coppe in misure standard o custom

Single-portion plexi-glass shelves standard or on demand

Serratura a chiave per porta (non disponibile su serie SLIDING)

Door lock (not available on sliding doors)

Cassonetto in cianocrilato retroilluminato neutro su richiesta personalizzazioni con logo cliente

Semi transparent lighting box, customized on demand with logos.

Rivestimento in vero legno verniciato a campione. Disponibile anche in essenze a richiesta

Covering with wood painted on demand or nobles essences.

R ■ L I N E

Le vetrine della serie "R" offrono la miglior visibilità al prodotto, grazie al particolare design a chiocciola del castello rotante possono essere ospitate fino a 52 torte. Disponibile in due famiglie R26 per torte con diametro fino a 26 cm e R32 per diametri fino a 32 cm. La completezza della gamma, con temperature di conservazione sia positive (range -5°/+25°C) sia negative (range +5°/-25°C), con dimensioni da 76 a 178 cm ne fanno lo strumento ideale per chi cerca una vetrina che offra un impatto al prodotto difficilmente superabile.

TECNOLOGIA

RIPIANI GIREVOLI SPECIALI

Tutte le vetrine della serie R sono dotate di sbrinatorio automatico: elettrico per la serie a conservazione positiva, a gas caldo per la serie negativa. Dotate di vetrate a 2 o 3 lastre a secondo del modello e con camere a gas inerte garantiscono il più efficiente isolamento termico.

La corretta ed uniforme conservazione viene garantita dal sistema no-frost. Stop ventole e stop castello rotante all'apertura della porta permettono un facile accesso per il carico o scarico della vetrina impedendo un facile afflusso di aria calda verso l'interno.

The "R" line cabinets offer the best visibility to the product; this is possible thanks to the special design of rotating shelves; they can show till 52 cakes.

It's available in two different versions, R26 for cakes with diameter 26 cm and R32 for cakes with diameter 32 cm.

The possibility to have positive and negative storage temperatures, 1 or 2 doors from 76 cm to 178 cm length, makes it the perfect showcase for anyone searching for the unbeatable effect in the shop.

TECHNOLOGY

SPECIAL ROTATING SHELVES

All the showcases of the R line are equipped with automatic defrost:

electric for the positive series, hot gas for the negative series.

Depending on the model, the glasses are made of 2 or 3 plates with inert gas compartments for ensuring the best thermic isolation.

The proper and uniform conservation is guarantee by No-Frost system.

When the door is open, fans and rotating shelves stop, so it's easy to load and unload the cabinet avoiding warm air inside it.

G L A S S Y
L I N E

Con più di 100 modelli a listino la linea glassy è la più completa presente nel mercato. Per la varietà di dimensioni, lati espositivi, temperatura di conservazione, tipo di refrigerazione, materiali, colori, accessori ed opzioni è in grado di soddisfare tutte le esigenze richieste. Dalle piccole esigenze a quelle più importanti è possibile trovare all'interno della linea il modello che può soddisfare qualsiasi richiesta.

Dimensioni a partire da 46 cm fino a quasi 3 mt, altezze a partire da 120 cm, profondità di 55, 64 e 76 cm garantiscono al cliente finale l'ottimizzazione degli spazi disponibili.

Per ogni modello è possibile scegliere quanti e quali lati vetro, le vetrine sono a doppio vetro per le macchine a conservazione in positivo, triplo vetro basso emissivo e doppia camera con gas inerte e resistenza anti condensa per le serie NFN e NT.

E' possibile scegliere il tipo di refrigerazione tra: positivo statico, positivo ventilato, negativo statico e negativo ventilato o in versione combinata per avere due o più temperature di conservazione nello stesso mobile. Per i climi più caldi è disponibile inoltre l'opzione tropicalizzazione. Per chi ne ha la necessità tutte le vetrine della serie 'Glassy' possono essere fornite con motore a distanza o condensazione H2O.

L'ampia scelta di colori e materiali rende possibile l'integrazione armonica di una vetrina 'Glassy' all'interno dei più diversi ambienti di vendita.

With a range of more than 100 models, the 'Glassy' Line is the most complete on the market. For the variety of sizes, exhibition sides, storage temperature, type of refrigeration, materials, colours, options and accessories is able to meet all the demands of the market. It is possible within the line to find the model that can satisfy any request.

Dimensions from 46 cm up to almost 3 meters length, height from 120 cm, depth from 55, 64 and 76 cm can ensure the final customer the optimization of the available spaces.

For each model, you can choose how many and which glass sides, double-glazed for positive temperature, and triple-glazed low-emissivity and double room with inert gas and anti-condensation resistance for the series NFN and NT.

The cooling can be chosen: positive static, positive ventilated, negative static and negative ventilated or combined version to have two or more storage temperatures in the same display. For warmer environments it is also available the option tropical. For those who need the 'Glassy' line showcases can be supplied with remote engine or H2O condensation system.

The wide range of colours and materials makes possible the harmonious integration of a 'Glassy' Line showcase within the most diverse locations.

LATO OPERATORE OPERATOR SIDE

Apertura facilitata grazie all'ergonomia delle nostre maniglie in acciaio lucido che rendono pratico e funzionale l'utilizzo pur mantenendo la qualità estetica.

Easy opening thanks to the ergonomics of our polished steel handles that make its use practical and functional while maintaining aesthetic quality.

MANIGLIE LEXUS
HANDLES

LATO CLIENTE CUSTOMER SIDE

Ottima esposizione del prodotto grazie ai tre livelli differenziati e alla regolazione in altezza dei ripiani su cremagliera, i ripiani risultano così sospesi verso il lato espositivo permettendo l'intera visuale del prodotto per facilitare l'acquisto d'impulso.

Excellent exposure of the product thanks to the adjustable shelves on rack, the shelves are thus suspended towards clients side, that allows the entire view of the product to facilitate the sales.

KIT CARNE

Kit per la conservazione e la vendita diretta.
Kit for storage and direct sales.

Kit Car è usato nell'esposizione e nella conservazione della carne.
Queste vetrine sono una soluzione ideale per la vendita di carne per tutte le macellerie.
The Car Kit is used for meat storage and display.
These showcases are an ideal solution for meat sales for butchers and restaurants.

KIT CAR

KIT MATURAZIONE

KIT MATURATION HR 30% - 80%.

Kit per la conservazione e la maturazione oltre 12 mesi.
Kit for storage and aging over to 12 months.

Kit di maturazione consente di ottenere carni con caratteristiche organolettiche superiori.
Grazie ad un software specifico di gestione della temperatura è possibile la conservazione del prodotto per lunghi periodi.
The aging Kit is used to obtain meat that needs a long dry aging with a plus characteristics.
The temperature and controlled humidity allow the constant maturation for the long period.

TERMOSTATO

1 CONTROLLER

Termostato Digitale Touch Screen per controllo temperatura umidità ventilazione.

Digital Touch Screen Thermostat to control ventilation humidity temperature.

LAMPADA UVC GERMICIDA

2 UVC GERMICIDAL LAMP

La lampada UVC germicida posta all'interno dell'evaporatore serve per contrastare la carica batterica che si genera all'interno della vetrina.

UVC germicidal lamp is placed inside the evaporator and it's useful to avoid bacterial attack that is generated inside the showcase.

GANCIERE IN ACCIAIO INOX

3 TUBE INOX

Ganciera inox, sulla quale è possibile appendere come optional i ganci per carne.

Tube inox, on which it is possible to hang hooks like optional.

VALVOLA ESPANSIONE ED EVAPORATORE

4 EXPANSION AND EVAPORATOR VALVE

Valvola per il controllo dell'evaporazione. Evaporatore trattato in cataforesi per conferire una notevole resistenza alla corrosione.

Expansion valve for evaporation control. Cathaphoresis evaporator to guarantee a better resistance to corrosion.

GRIGLIE INOX

5 INOX GRATES LEDGES

Resistenti griglie in acciaio inox e supporti coordinati per garantire un'ottima esposizione dei prodotti.

Resistant stainless steel grids and coordinated supports to ensure an excellent exposure of products.

ILLUMINAZIONE A LED ROSA

6 PINK LED LIGHTING

Valorizza il colore naturale della carne, non contiene alcuna radiazione ultravioletta e non influenza la temperatura interna alla vetrina.

It enhance the natural colour of meat, it doesn't contain any ultraviolet radiation and it does not influence the temperature inside the showcase.

LINE SALUMI

S A L U M I
L I N E

Tekna propone una linea di vetrine refrigerate verticali dedicata all'esposizione e conservazione dei salumi, grazie alla gestione dei cicli di asciugatura e stagionatura, offrendo la possibilità di stagionare i salumi in maniera naturale.

Grazie ad un controllo sistematico della temperatura, ventilazione ed umidità è possibile stagionare i salumi all'interno di un ambiente asettico, evitando sbalzi di temperatura improvvisi e correnti d'aria esterne.

Tekna is here proposing a vertical refrigerated display cases dedicated to the exposure and storage of "salumi". It offers also the possibility of its maturation in a natural way and aseptic environment thanks to a systematic control of the temperature, ventilation and humidity to avoid sudden changes in temperature.

WALL

I pensili refrigerati di Tekna sono nati per soddisfare le esigenze del cliente, sfruttando la parete nella sua altezza per permettere l'esposizione e la conservazione dei prodotti anche in spazi ridotti.

Questo permette di avere al di sotto del pensile un piano di lavoro utilizzabile senza ingombri.

Ideale per bar, pasticcerie, gelaterie, laboratori, gastronomie, macellerie.

Tekna refrigerated wall units were born to satisfy customer needs using the wall in all its height.

Our wall series allows customers to expose its products, preserve its qualities and saving space.

They are perfect for coffee shops, bakeries, laboratory, gastronomy and butcher shops.

compact
line

C O M P A C T
L I N E

Linea di frigoriferi da banco a refrigerazione ventilata (No-frost), disponibile sia in versione a temperatura positiva (NFP) sia negativa (NFN).

Le dimensioni e l'ampia visibilità interna rendono la linea "compact" ideale per chi ha la necessità di esporre e conservare al meglio i propri prodotti anche in presenza di ridotti spazi espositivi.

- Il vano motore, avvolto da lastre in materiale plastico semi-trasparente è retroilluminato e può essere personalizzato con loghi scelti dal cliente.
- Telaio esterno in alluminio ossidato disponibile nei colori grigio e bronzo standard, nero, lucido ad effetto cromo oltre che verniciato a richiesta.
- Utilizzo di vetrate basso emissive a doppia camera a gas inerte e triplo vetro per serie NFN
- Interno dotato di illuminazione, contatto stop ventole su apertura porta, griglie cromate e verniciate, ripiani in vetro a richiesta e senza costi aggiuntivi.
- Defrost automatico, eliminazione della condensa per evaporazione. Sbrinatorio a gas caldo per vetrine della serie NFN, con resistenza elettrica per la serie NFP.

Ampia gamma di accessori e optional disponibili

Line of counter refrigerators with ventilated (No-Frost) refrigeration system

available in both positive temperature (NFP) and negative (NFN).

With its dimensions and internal visibility the " compact" line is ideal for those who need to display and store most of their products in reduced spaces.

- The engine compartment is covered with a semi-transparent plastic lighting box, that can be customized with clients' logos.
- External finish: anodized aluminum silver or bronze standard, black ,polished chrome effect as well as coated on demand.
- Using of low-e glass double compartment with inert gas and triple glass for NFN series
- Inside lighting , contact fans' stop when opened door, treated grid shelves or glass shelves upon request and without additional costs.
- Automatic Defrost, condensing water elimination. Defrost with use of hot gas for NFN series, with electrical resistance for NFP series.

Available wide range of accessories and options

lab line

L A B . L I N E

La linea 'Lab' viene incontro ai laboratori, non solo gelateria e pasticceria, che richiedono un prodotto che soddisfi le più comuni esigenze di conservazione e abbattimento dei prodotti.

La 'Lab' line si sviluppa attraverso dimensioni, allestimenti interni, tipologia di conservazione e materiali, che portano il numero di modelli disponibili a più di 50.

La linea 'Lab' è composta da armadi refrigerati a conservazione: positiva statica, positiva ventilata, negativa ventilata, abbattimento ventilato a de-frost automatico o manuale.

La linea 'Lab' mantenendo inalterate le prestazioni viene offerta in: lamiera plastificata, lamiera pre-rivestita effetto inox e acciaio inox.

La linea 'lab' al suo interno presenta allestimenti per gelateria, pasticceria, panificazione attraverso griglie porta vasche o assetti per teglie 60 x 40, GN 1/1, GN 2/1 o a richiesta dimensioni speciali.

La linea 'lab' offre inoltre la possibilità di avere l'unità condensante in remoto o condensata H2O per rendere così l'ambiente all'interno del laboratorio più confortevole.

The 'Lab' line meets the laboratories, ice cream shops and bakeries in particular, which require a cabinet that satisfies the most common needs of conservation and blasting of products.

It develops through dimensions, inner settings, materials and type of storage, choosing between more than 50 models.

The 'Lab' line consists of refrigerated cabinets for storage: static positive, positive ventilated, negative ventilated, blasting ventilated with automatic or manual de-frost.

Maintaining high performances the 'Lab' line is offered in: white skinplate, grey skinplate stainless steel effect and stainless steel.

The 'Lab' line can be fitted for ice cream pans, pastry, bakery through grid shelves or guides for trays 60 x 40 cm, GN 1/1, GN 2/1 or special sizes on demand.

The 'Lab' line also offers the possibility to have the remote condensing unit or H2O condensation system to have a more comfortable environment inside the laboratory.

LEXSUS

LINEA LEXUS

LEXUS LINE

La linea LEXSUS è la versione TOP di gamma di tutte le vetrine verticali Tekna.

Con più di 100 modelli a listino la linea LEXSUS è la più completa presente sul mercato. Per la varietà di dimensioni, lati espositivi, temperatura di conservazione, tipo di refrigerazione, materiali, colori, accessori ed opzioni è in grado di soddisfare tutte le richieste che il mercato necessita. Dalle piccole esigenze a quelle più importanti è possibile trovare all'interno della linea il modello che può soddisfare qualsiasi richiesta.

Le vetrine presentano una SERIGRAFIA a scelta tra i colori GRIGIO e NERO, triplo vetro basso emissivo e doppia camera con gas inerte e resistenza anti condensa.

The LEXSUS line is the TOP of the range for all the upright Tekna showcases. With more than 100 models, the LEXSUS Line is the most complete on the market. For the variety of sizes, exhibition sides, storage temperature, type of refrigeration, materials, colours, options and accessories is able to meet all the demands of the market. It is possible within the line to find the model that can satisfy any request. For each model, you can have SILVER OR BLACK SILK-SCREEN PRINTING, triple-glazed low-emissivity and double room with inert gas and anti-condensation resistance glasses.

DI SERIE

DEFAULT

Finitura esterna: alluminio ossidato argento, bronzo o nero, cromato o satinato

Finitura interna: acciaio inox a specchio

Tubi luci LED - Termostato digitale touch posizionato in alto - Motore tropicalizzato

In tutti i modelli NT griglie refrigerate con ripiani vetro inclusi

External finish: anodized aluminium silver, bronze or black, chrome and satin

Inner finish: stainless steel mirror effect

LED lights tubes - Digital touch controller on top - Tropicalized version

In all NT models refrigerated grids with glass shelves included

OPTIONAL

OPTIONS

Vedere lista accessori

Per chi ne ha la necessità tutte le vetrine della serie LEXSUS possono essere realizzate con motore remoto fornito o meno (valvola di espansione a richiesta) o condensazione H2O.

Alcuni prodotti sono disponibili con R290.

L'ampia scelta di colori e materiali rende possibile l'integrazione armonica di una vetrina LEXSUS all'interno di ogni ambiente.

Check options list

The LEXSUS line showcases can be manufactured with remote engine supplied or not supplied by us (expansion valve on demand) or H2O condensation system.

Some products could be available with R290

The wide choice of colours and materials permits the harmonious integration of a LEXSUS showcase in any place.
